Next Year Enrollment

Friends, We are hoping all of you will give some thought to what classes you want for next year. Please let us know, as we are making the lists, and spaces are limited!

Summer School Enrollment

Summer school will begin this year on June 22 until July 30, Monday through Thursday mornings from 9-12. We do lots of fun field trips, going out twice a week, and staying to explore our own space twice a week. Because we are on the go, we limit the class to 3 - 6 year olds. Classes are either M/W or T/Th, or you can sign up for all four mornings. It also might be possible to split sessions, if you were traveling for part of the time.

Field Trips

We have had some great field trips so far this year, visiting the dinosaur bones at CU's Henderson Museum, Fiske Planetarium, and the Streetside Dance Studio. We are looking forward to all classes going to Margaret's goat farm to visit the baby goats in April. Also in April, the MWF class will enjoy some visits from Turning the Wheel, a creative movement experience. We also will be returning to the opera, this time *Orlando* on April 9th.

Late Winter Curriculum

February was full of celebrations - both Valentines Day, when we explored friendship and giving and receiving, and Lunar New Year, when we created the Dragon mask so we could dance the dragon dance welcoming in good energy for the New Year. We have enjoyed learning about space and planets this

month, creating some beautiful art around that theme, and building a spaceship with each group. We look forward to some animal studies, and also investigation into painters and different methods of painting. You should enjoy some great new artwork for your homes.

Fundraising Event & Raffle

Our date for our fundraiser at OZO roasters is April 19th, 3-6pm. We have some great prizes for our raffle. The grand prize is a gift certificate toward a dinner at Frasca, Boulder's best restaurant. We also have zoo tickets and many more items. You will be getting these in your box, and we ask you to sell as many as you can to your friends and family. This is our chance to contribute to our tuition subsidy fund, and make sure our school is affordable for everyone in the community.

Chicken Coop

We are looking at some warmer weather, and hoping to get the chicken coop finished, so we can move in some chickens this spring. Come help Sunday, March 29th in the afternoon.

The Planet Song

The sun's a hot star
 Mercury's hot too
 Venus is the brightest one
 Earth's home to me and you
 Mars is the red one
 Jupiter is most wide
 Saturn has those icy rings
 And Uranus spins on its side
 Neptune's really windy (whoosh!)
 And Pluto's really small
 You wanted to know the planets,
 and now you know them all
